

Kathmandu University

Department of Geomatics Engineering

Orientation for
Field Survey III - GEOM 404

Presented By: Pawan Thapa
Field Technical Team Lead

Presented To:
Geomatics Engineering 4th Year

Contents

1. Surveying Tasks
2. Proposed Field Sites
3. Field Work Schedule
4. Survey Protocol for Students
5. Instruction Time & COVID 19 Protocols

Surveying Tasks

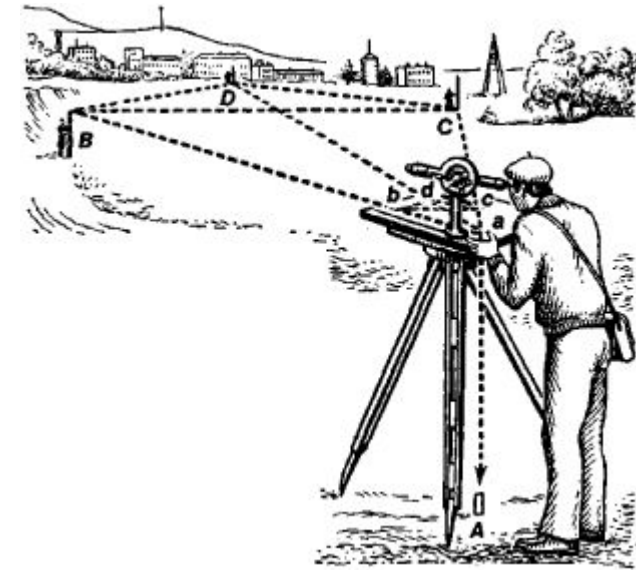

1. Digital Leveling (Precise Leveling)
2. Global Positioning Survey (GPS)
3. Control points by Differential Global Positioning System (DGPS)

Surveying Tasks

4. Graphical Cadastre

5. Digital Cadastre

Resources: <https://drive.google.com/drive/folders/1kbYWKuC4jbvfF4gUt1EqcbZE6NitAXnK?usp=sharing>

Proposed Field Sites

1. Kathmandu University Premises
2. Bangahari Plotting
3. LMTC Periphery
4. KUSMS Hostel

Field Work Schedule

Give formal introduction to Field Work. Provide instructions and Materials		Introduction to digital leveling, GPS and DGPS Data Acquisition Data export and editing Thematic Map Preparation Base and Rover Setting Data calculation and reporting.		Introduction to Parcel Editor Plotting the cadastral survey sample data. Prepare the Geodatabase with the required fields, domains required for the cadastral data in general.	
Orientation	First day	First week	Second Week	Third Week	After Field
	Collect Survey Instruments and Stationary items.		Introduction to Graphical and Digital Cadastre Data acquisition Map preparation		Report Preparation Rest of Data Processing, Report Compilation and Submission Viva Presentation

Survey Protocol for Students

- Healthy - If you are ill, report immediately to department.
- Rested and Nourished
- Free From Influence of Drugs or Alcohol
- Cover an instrument whenever it is uncased and not being used.
- Dry a wet instrument as completely as possible before casing.
- NEVER leave an instrument unattended.
- Never point the instrument directly at the sun.
- Protect survey instruments from excessive heat.
- Keep batteries well charged and remove after work.
- When not in use, keep reflectors in their containers.
- Protect the instrument from people, animals, equipment, rain, sand, dust, wind, traffic and other hazards.

Instruction Time & COVID 19 Protocols

1. Instruction time 9:00 am to 4:00 pm
2. Faculties are not available on holidays

Please feel free to ask any questions ?
